

5-ALA cream

(Aminolevulinic acid)

instructions for use

KIT CONTAINS

1. 5mL vial of 5-ALA diluent
2. 3mL luer lock syringe
3. Luer lock connector
4. 18G needle
5. 2.5mL of emulsifying ointment in a 3mL luer lock syringe
6. Vial of 5-ALA powder

NOTE

- Store 5-ALA powder in a freezer.
- Discard 3 days after reconstitution.

INSTRUCTIONS FOR USE

1. Attach 18G needle to empty 3mL luer lock syringe and withdraw 0.5mL from 5mL 5-ALA diluent vial.
2. Reconstitute the 5-ALA powder using the 0.5mL of 5-ALA diluent.
3. Draw up resulting solution back into empty syringe.
4. Using the luer lock connector, lock the cream syringe and the syringe containing the solution. Mix these together.
5. Apply and occlude as required.
